

EXPLANATORY MEMORANDUM

At its meeting in Luxembourg in December 1997, the European Council decided that the Accession Partnership would be the key feature of the enhanced pre-accession strategy, mobilising all forms of assistance to the candidate countries within a single framework. In this manner, the Community targets its assistance towards the specific needs of each candidate so as to provide support for overcoming particular problems with a view to accession.

The first Accession Partnership for Slovakia was decided in March 1998. In line with the provisions laid down in Regulation (EC) No. 622/98¹ (article 2), the Partnership was updated a first time in December 1999, taking into account further developments in Slovakia. Based on the analysis of the Commission's 2001 Regular Report on progress made by Slovakia towards accession, the Commission considers that the time has come for a further revision of the priorities and intermediate objectives identified in the Accession Partnership. The present proposal for such a revision draws on the findings of the Commission's 2001 Regular Report on progress made by Slovakia towards accession.

The attached draft decision does not have financial implications.

In view of the above, the Commission invites the Council to adopt the attached draft decision.

1. INTRODUCTION

At its meeting in Luxembourg in December 1997, the European Council decided that the Accession Partnership would be the key feature of the enhanced pre-accession strategy, mobilising all forms of assistance to the candidate countries within a single framework. In this manner, the Community targets its assistance towards the specific needs of each candidate so as to provide support for overcoming particular problems with a view to accession.

The first Accession Partnership for Slovakia was decided in March 1998. As provided for in Regulation (EC) No. 622/98 (article 2), the Accession Partnership was updated a first time in December 1999, taking into account further developments in Slovakia. The present revision is based on a proposal by the Commission following consultation with Slovakia, and draws on the analysis of the Commission's 2001 Regular Report on progress made by Slovakia towards accession.

2. OBJECTIVES

The purpose of the Accession Partnership is to set out in a single framework the priority areas for further work identified in the Commission's 2001 Regular Reports on the progress made by Slovakia towards membership of the Union, the financial means available to help Slovakia implement these priorities and the conditions which will apply to that assistance. The Accession Partnership provides the basis for a number of policy instruments which will be used to help the candidate States in their preparations for membership. These include *inter alia* the updated National Programme for the Adoption of the Acquis prepared by Slovakia, the pre-accession fiscal surveillance procedure, the Pre-accession Economic Programme, the Pre-accession pact on organised crime as well as the National Development Plans, the Rural Developments Plans, a national employment strategy in line with the European Employment Strategy, and sectoral plans necessary for the participation in the Structural Funds after membership and for the implementation of ISPA and SAPARD before accession. Each of these instruments is different in nature and is prepared and implemented according to specific procedures and may be supported by pre-accession aid. They are not an integral part of this Partnership but the priorities they contain will be compatible with it.

3. PRINCIPLES

The main priority areas identified for each candidate State relate to their ability to take on the obligations of meeting the Copenhagen criteria which state that membership requires:

- that the candidate State has achieved stability of institutions guaranteeing democracy, the rule of law, human rights and respect for and protection of minorities;
- the existence of a functioning market economy, as well as the capacity to cope with competitive pressure and market forces within the Union;
- the ability to take on the obligations of membership, including adherence to the aims of political, economic and monetary union.

At its meeting in Madrid in 1995, the European Council stressed the need for the candidate States to adjust their administrative structures to ensure harmonious operation of Community policies after accession and at Luxembourg, in 1997, it stressed that incorporation of the *acquis* into legislation is necessary, but not in itself sufficient; it is necessary to ensure that it is actually applied. The Feira and Gothenburg European Councils in 2000 and 2001 respectively confirmed the vital importance of the applicant countries' capacity to implement and enforce the *acquis*, and added that this required important efforts by the applicants in strengthening and reforming their administrative and judicial structures.

4. PRIORITIES AND INTERMEDIATE OBJECTIVES

The Commission's Regular Reports have highlighted, besides the progress already made, the extent of the efforts which still have to be made in certain areas by candidate States to prepare for accession. This situation requires the definition of intermediate stages in terms of priorities, each to be accompanied by precise objectives to be set in collaboration with the states concerned, the achievement of which will condition the degree of assistance granted and the progress of the negotiations under way with Slovakia. The priorities listed in the revised Accession Partnership have been selected on the basis that it is realistic to expect that Slovakia can complete or take them substantially forward over the next two years (2002 – 2003). Within this list, issues that require particularly urgent action have been highlighted as such. The progress made in meeting the priorities of the 1999 Accession Partnership is assessed in the 2001 Regular Report. This assessment has been used in formulating the priorities for the current Partnership.

Slovakia submitted an updated version of its National programme for the Adoption of the *Acquis* (NPAA) in June 2001. The NPAA sets out a timetable for achieving priorities and intermediate objectives, based on the 1999 Accession Partnership, as well as necessary administrative structures and financial resources.

The Accession Partnership indicates the priority areas for Slovakia's membership preparations. Slovakia will nevertheless have to address all issues identified in the 2001 Regular Report. It is also important that Slovakia fulfils the commitments of legislative approximation and the implementation of the *acquis* in accordance with the commitments made under the Europe Agreement, and in the context of the negotiation process. It should be recalled that incorporation of the *acquis* into legislation is not in itself sufficient; it will also be necessary to ensure that it is actually applied to the same standards as those which apply within the Union. In all of the areas listed below there is a need for credible and effective implementation and enforcement of the *acquis*.

Drawing on the analysis of the Commission's Regular Report, the following priorities and intermediate objectives have been identified for Slovakia. These priorities are presented in accordance with the structure of the Regular Report.³

5. PROGRAMMING

For the period 2000-2006, in addition to Phare, financial assistance to Slovakia comprises support for pre-accession measures for agriculture and rural development through the pre-accession instrument SAPARD (Council Regulation (EC) No 1268/99, OJ L 161, 26.6.1999, p.87); and support for infrastructure projects in the fields of environment and transport through the structural instrument ISPA (Council Regulation (EC) No 1267/99, OJ L 161, 26.6.1999, p. 73), which gives priority to measures similar to the cohesion fund in the pre-accession period. Under these national allocations, Slovakia can also fund part of its participation in community programmes including the Research and Technological Development Framework Programmes and programmes in the areas of Education and Enterprise. In addition Slovakia will have access to funding from multi-country and horizontal programmes directly related to the *acquis*. Joint financing by the applicant States is systematically required for all investment projects. Since 1998 the Commission has worked with the European Investment Bank and the International Financial Institutions, in particular the European Bank for Reconstruction and Development and the World Bank, with a view to facilitating the co-financing of projects relating to pre-accession priorities.

6. CONDITIONALITY

Community assistance for financing projects through the three pre-accession instruments Phare, ISPA and SAPARD is conditional on respect by Slovakia of its commitments under the Europe Agreement, further steps towards satisfying the Copenhagen criteria and in particular progress in meeting the specific priorities of this revised Accession Partnership.

Failure to respect these general conditions could lead to a decision by the Council on the suspension of financial assistance on the basis of Article 4 of Regulation (EC) No 622/98.

7. MONITORING

The implementation of the Accession Partnership is monitored in the framework of the Europe Agreement. As underlined by the European Council in Luxembourg, it is important that the institutions of the Europe Agreement continue to be the framework within which the adoption and implementation of the *acquis* can be examined. The relevant sections of the Accession Partnership are discussed in the appropriate sub-committee. The Association Committee discusses overall developments, progress and problems in meeting the Partnership's priorities and intermediate objectives as well as more specific issues referred to it from the sub-committees.

The PHARE Management Committee ensures that actions financed under all three pre-accession instruments, PHARE, ISPA, and SAPARD, are compatible with each other as well as with the Accession Partnerships as laid down in the Co-ordinating Regulation (Council Regulation (EC) No 1266/99, OJ L 161, 26.6.1999, p. 68).

The Accession Partnership will continue to be amended as necessary in accordance with Article 2 of Regulation (EC) No 622/98.
